The insurer recognises courses/training that take place in Switzerland, are run by a specialist and cannot be transferred to another person. The insurer recognises subscriptions to gyms/fitness centres and indoor pools that run for at least six months. The insurer recognises courses in the Movement area that comprise at least 10 lessons/sessions.

The products and requirements for the health account are determined by the insurer. They can be unilaterally changed by the insurer at any time without this giving rise to a right to terminate the contract for the insured person.

*The course must be invoiced in Swiss francs. The submitted receipts must state the first and last names of the insured person as well as the items purchased. It is not enough to submit the cross-country skiing pass itself; the invoice/receipt must be submitted (bank statement or invoice).
